SRC Infrastructure Health and Safety Policy Statement

We are a London based engineering and design consultancy working to turn ideas into reality, delivering solutions within the transportation industry.

1. Commitment

It is the intention of SRC Infrastructure that its activities will, as a minimum, comply with all relevant statutory provisions, railway industry standards and that all reasonably practical measures will be taken to minimise risk to its employees or others affected by its operations. In every case, high practicable standards of health and safety will be pursued. The directors further recognise duties to comply with current legislation and regulatory requirements relating to Health and Safety at Work and commit to a policy of continual improvement.

2. Responsibility

Ashley Butterworth as the Managing Director of the company is responsible for the SRC Health & Safety Policy and the effective implementation, maintenance and review of the Safety Management System. Antoinette Davey as Health & Safety Consultant is responsible for monitoring the effective application, operation and development of the safety policy.

Management and supervisory staff have the responsibility for implementing this policy throughout SRC and must ensure that health and safety considerations are always given priority in the planning and execution of all work.

All employees and contractors are expected to cooperate with SRC in carrying out this policy, and must ensure that their own work, so far as reasonably practicable, is carried out with the minimum risk to themselves or others.

3. Approach

The Health and Safety Consultant is available to assist with the implementation of this policy, and provide information, advice and support to employees on health and safety matters.

Adequate financial and technical resources will be made available to allow this policy to be carried out. Information and training on health and safety will be provided to all staff as necessary for them to carry out their work safely and with minimal risk to health.

This SRC Policy Statement will be displayed prominently in SRC offices. The SRC Health and Safety documentation will be drawn to the attention of all employees and will be readily available for reference.

Signed

Ashley Butterworth
Managing Director
